

Margaret Smith, DVM, DAVDC

Feline Dental Chart

Date:		
Patient:		
PID:		
Chief Complaint:		
Awake	Sedated	Anesthetized

MAL/1	BV, DV, LABV, LV, MV, PV	AT/AB	Attrition/abrasion	N A – Extraoral/facial
MAL/2	MAL/3 MAL/4	E/D, E/H	Enamel/defection, hypoplasia	
CB/C,R	Crossbite caudal, rostral	CA	Caries	
T/SN, SR	Supernumerary tooth, root	RTR	Retained tooth root or reserve crown	N A – Lymph nodes
DT	Deciduous tooth	T/A, I, LUX	Tooth/avulsed, impacted, luxated	
DT/P	Persistent deciduous tooth	T/NV	Tooth/non-vital	
PD0	No perio dx (clinically normal)	CL/B, L, P, T	Chewing lesion	
PD1	Gingivitis (no bone loss)	FB	Foreign body	N A – Buccal mucosa
PD2	Mild periodontitis (25% attach loss)	LAC/B, L, T	Laceration/buccal, lip tongue	
PD3	Mod periodontitis (25–50% attach loss)	MN/FX MX/FX	Jaw fractures	
PD4	Severe periodontitis (>50% attach loss)	SYM/S	Symphyseal separation	
GE	Gingival enlargement	CFF, CFL	Cleft palate, Cleft lip	N A – Tongue
GR	Gingival recession	ONF	Oronasal fistula	
ST, ST/CS	Stomatitis, caudal stomatitis	ESP	Elongated soft palate	
CU/ST/CS	Contact mucosal ulcer/mucositis	TMJ/D, FX, LUX	TMJ dysplasia, fracture, luxation	
OM	Oral mass	GH	Gingival hyperplasia	N A – Palate
DTC	Dentigerous cyst	PA/P	Periapical pathology	
T/FX	Tooth fracture (EI, EF, UCF, CCF, UCRF, CCRF, RF)	T/DIL	Dilaceration	
ABE	Alveolar bone expansion	T/FDR	Fused roots	
LN/E	Lymph node enlargement	T/U	Tooth unerupted	N A – Pharynx/Tonsils
SE	Super eruption	*SI	Intrinsic staining

Nerve Block 0.5% Bupivacaine	RIGHT	LEFT
Infraorbital	mL	mL
Inferior Alveolar	mL	mL
Mental	mL	mL
Other		

RAD	Rads (Dental, CDR, CT Scan, Plain Film)
B/I B/E	Biopsy-incisional/excisional
CS	Culture/Sensitivity
PRO	Professional prophylaxis
GC	Gingival curettage
RP/C	Closed root planing
RP/O	Open root planing
GV	Gingivoplasty/gingivectomy
F/AP	Apically repositioned flap
F/CO	Coronally repositioned flap
F/LA	Laterally positioned flap
CR/L	Crown lengthening (Type 1, 2, 3)
GF/B	Bone graft
GTR	Guided tissue regeneration
GF/G	Gingival graft
SPL/AC, C, W/R	Splint acrylic, composite, wire reinforced
RCT	Standard root canal therapy
RCT/S	Surgical root canal therapy
TRX	Tooth partial resection (hemisection)
CR/A	Crown amputation
CR/XP	Crown reduction
VPT	Vital pulp therapy
PCD, PCI	Direct/indirect pulp capping
CRA	Crown amputation
APN	Apexification
APG	Apexogenesis
R, R/C, I, A	Restoration, composite, GI, amalgam
IMP	Implant
F	Flap
X	Extr.-closed no sectioning
XS	Extr.-closed, w/ sectioning
XSS	Extr.-open
ALV	Alvelectomy/alveoloplasty
ONF/R	Oronasal fistula repair
CFP/R	Cleft palate repair
CFL/R	Cleft lip repair
S/P	Palate surgery
S/M	Mandibulectomy (partial)
S/X	Maxillectomy (partial)
FRE	Frenoplasty
SYM/R	Symphyseal repair
FX/R	Jaw fracture repair (j. fx. rp.)
FX/R/PL	Plate j. fx. rp.
FX/R/S	Screw j. fx. rp.
FX/R/WIR	Wire j. fx. rp.
FX/R/WIR/C	Cerclage wire j. fx. rp.
FX/R/WIR/ID	Interdental wire j. fx. rp.
FX/R/WIRE/OS	Osseous wire j. fx. rp.
FX/R/WIR/IDS	Splinting
FX/R/MMF	Maxillary mandibular fixation
CON/X	Condylectomy
LUX/R	Reduction of TMJ luxation
CBU	Core build up
CR/P	Crown preparation
CR/M	Crown metal
CR/PFM	Crown porcelain fused to metal
IMF	Impressions full mouth
IP/AC, C, M	Inclined plane/acrylic, composite, metal
OA/I	Ortho appliance – install
OA/A	Ortho appliance – adjust
OA/R	Ortho appliance – remove
OA/BKT, BU	Ortho app./bracket, button
OA/EC, WIR	Ortho app./elastic, wire
